SHELLFISH IMPORT PERMIT

NEW ☒ RENEW ☐

Prev. Permit #

SHELLFISH IMPORT PERMIT NO. 22-3058

Company/Organization: **University of Washington**

Address: **1122 NE Boat St**

Telephone No: **206-866-5141**

Authorizing import of (species, life stage, and quantity): **Pacific oyster (*Magallana/Crassostrea gigas*) 100 adults**

Applicant: **Steven Roberts**

City, State, Zip: **Seattle WA 98105**

Email: **sr320@uw.edu**

Purpose: **Research**

FROM (source): Location from which applicant will import shellfish: State: **Oregon**

Embayment: **Yaquina Bay**

Facility name: **Molluscan Broodstock Program**

Demonstrated health history embayment/facility: **Yes**

Valid health certification provided: **Yes**

Sample date(s): **8/1/2022**

Report number(s): **A22-78**

TO: Property to which applicant will make transfer: General Area: **Hood Canal**

Specific Area: **Jamestown Tribal Ventures Point Whitney Shellfish Hatchery, Brinnon WA**

Conditions of Import: **Permit applies only to species, life stages, quantities, and source/destination locations listed. The permit holder must read, understand, and comply with the attached permit conditions beginning on page 2.**

THIS PERMIT IS VALID FROM: **8 September 2022**

TO: **31 December 2022**

The permit holder must comply with all applicable laws and regulations concerning shellfish culture. This permit, in its entirety, must accompany the shellfish during import and transfer at all times. The permit holder must comply with the attached permit conditions. This permit may be revoked at any time for failure to abide by the stated conditions or if such action is deemed to be in the best interest of the fisheries resources by the Director of Fish and Wildlife (Department), subject to the holder's opportunity to contest the same, pursuant to the Administrative Procedures Act, Chapter 34.05, RCW. Disclaimer: Given the information provided by the permittee, the Department approves this introduction; however, no guarantees or other assurances are made relative to the presence or absence of shellfish diseases, pests, or predators.

Kelly Cunningham
Director, Fish Program

Date

cc: Enforcement, Regions 4 and 6

RCW 77.12.455, 77.115.010, and WAC 220-370-200 require a permit issued by the Director of Fish and Wildlife or his agent for import or possession of live imported aquatic invertebrates (see WAC 220-370-200 for more information and exception).

PERMIT CONDITIONS

1. Permit applies only to species, life stages and source/destination locations listed.
2. Disease-free health certifications for all listed species are to be renewed annually.
3. All shellfish must be thoroughly washed clean immediately prior to shipment to Washington.
4. Shellfish must be visually inspected, and all invertebrates not specifically approved for import must be removed immediately prior to shipment to Washington.
5. All shellfish must be treated with a solution of 10 parts per million (ppm) sodium hypochlorite mixed with freshwater immediately prior to shipment to Washington. This treatment will be performed for not less than one hour and the residual chlorine at the end of the treatment must be at least 2 ppm. The treatment may be followed by a freshwater rinse.
6. If these shellfish are found to have infectious diseases or harmful pests or parasites, or if any of these species experience mortalities exceeding 5% in any 7-day period, the Department must be notified immediately by telephone (360-302-3030 ex. 301) followed by a letter to 375 Hudson Street, Port Townsend, WA 98368 (email: brady.blake@dfw.wa.gov). The importer may be required by the Department to destroy all imported shellfish and immediately cease imports of shellfish.
7. All shellfish imported from this source are subject to inspection by Department personnel. This inspection may include visual verification of cleanliness of all or part of a shipment prior to processing and destructive subsampling to verify the absence of harmful diseases, pests or predators including the European green crab, *Carcinus maenas*. Visit <https://wdfw.wa.gov/licenses/fishing/shellfish-import-transfer#> for identification and information on European green crab.
8. The import permit may be suspended by the Department at any time if the procedures used to transfer shellfish do not protect Washington State waters from accidental or purposeful introduction of any infectious disease or harmful parasite or pest, if the permit conditions are not followed, or if elevated risk of disease is identified by the Department.

WDFW Fish and Wildlife Biologist

SUBJECT: NEW SHELLFISH ENHANCEMENTS TO TIDELANDS IN WASHINGTON STATE

In accordance with the federal court ordered Revised Shellfish Implementation Plan section 8.1.1, (pursuant to U.S. vs. Washington State, Case No. 9213, subproceeding 89-3) any new enhancements to tidelands in Washington State identified through the issuance of Washington Department of Fish and Wildlife Import or Transfer Permits need to be reported to the treaty tribes. If you know of any new shellfish enhancements created as a result of your permit, please notify me at the address above as soon as possible. Thank you for your cooperation.
